Government Spies.

Arizona Hoof and Horn.]

Arizona—both north and south is at present inflicted with a plague equivalent in its intensity to the itch. It is a class of men who, under the protection of official appointments, are assuming to brand all men as rogues and rascals, as their individual fancy may dictate. Agents and inspectors may mean much or little, but here in Arizona that much or little is summed up in the simple word "spy." This system of official espionage is un-American in character, and foreign to the policy of our government, yet the last few years have seen it grow to such an extent that it bids fair to soon rival the spy system that has become famous in some European nations under the fostering care of monarchial despotism. Because a settler—be he miner, stockman or farmer—has availed himself of seeking a home in one of the western territories, is no cause why the government should impose on him—in addition to the hardships of frontier life—the indignity of being under constant surveillance. A little less of the secret spy service and a little closer observance of that constitutional right vouchsafed all citizens—that they be presumed innocent of crime or even criminal intent until proven guilty—will be a reform that is badly needed in Arizona as well as many another territory.

Wyoming Stock Raisers.

The sixteenth annual meeting of the Wyoming Stock Growers Association was held in Cheyenne during the present week. The attendance was large, considering all the circumstances, and the feeling of interest in the business of the organization strong.

Stockmen of the territory are hopeful of the future, and a disposition is everywhere manifest among them to "stay with the cattle." The association has been relieved of a large share of its labors by the creation of the Board of Live Stock Commissioners, but there is an abundance of work left for it to do, and from present appearances the membership will increase rather than fall off.

The constitution having been changed so as to provide for annual dues of $10, and the abolition of the assessments, will render the holding of membership inexpensive and greatly popularize it. And this is well. For there never was a time in the history of the stock business of this country when all the practical men so much needed concert of action as now. With a hearty co-operation among interested parties, the future will soon be made bright, and a material prosperity will follow.—[Cheyenne Journal.

The Verdict Unanimous.

W. D. Sult, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of rheumatism of ten years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my twenty years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. Only a half dollar a bottle at Hodgkinson & Co.'s drug store.

MISCELLANEOUS.

EVERY NIGHT I SCRATCHED

Until the Skin was Raw, Body Covered with scales like spots of mortar. Cured by the Cuticura Remedies.

I am going to tell you of the extraordinary change your Cuticura Remedies performed on me. About the first of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like spots of mortar spotted on, and which came off in layers, accompanied with itching. I would scratch every night until I was raw, and then the next night the scales having formed meanwhile were scratched off again. In vain did I consult all the doctors in the country, but without aid. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your Cuticura Remedies, and purchased them from my druggist and obtained almost immediate relief. I began to notice that the scaly eruptions gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen months before I began taking the Cuticura Remedies, and in four or five weeks was entirely cured. My disease was eczema and psoriasis. I recommended the Cuticura Remedies to all in my vicinity, and I know of a great many who have taken them and thank me for the knowledge of them, especially mothers who have babes with scaly eruptions on their heads and bodies. I cannot express in words the thanks to you for what the Cuticura Remedies have been to me. My body was covered with scales, and I was an awful spectacle to behold. Now my skin is as nice and clear as a baby's.

A RACING CHALLENGE!

I, THE UNDERSIGNED, OWNER OF the stallion Gibraltar, having heard that a party residing in the town of Reno owning a three year-old colt, has made the statement that he is willing to match said colt to trot against any in Nevada for coin. I her by state that I will match a Gibraltar 1886-year old colt against his three-year-old, or any other colt raised and owned in Nevada, of any age, for the sum of $250 or $500 a side; said race to take place on any track in Nevada during the coming fair time. Or I will bet Gibraltar will beat any stallion owned in the state of Nevada, he pulling a buggy and his opponent a sulky, mile heats, three in five, the race to take place at the same time as the one above mentioned.

Or I will bet $4,000—or $1,000 on each—that Gibraltar and three of his colts will trot a dash of a mile, each one, at the next Reno fair inside of 2:30.

Furthermore, I will bet $500 that I can name a Gibraltar colt that will trot a mile and gain a record better than 2:20 in the year of 1888.

MONDAY.....APRIL 9, 1888

In another column will be found some practical suggestions by a citizen on the fire department question. They are worthy of consideration, and apparently trend in the right direction. The GAZETTE, from time to time, has urged action on the part of those in power in this direction. There are many other ways in which the town can better retrench than in that of providing means for fighting the flames. Each fire takes so much property from the assessment roll; detracts so much from the business energies of the town; adds so much additional to insurance, and has a tendency to cripple the industries as well as to keep many from coming hither. The fact that most of our buildings are of pine; that we have so little rain; that at all seasons we have our prevailing winds; that at any time a spark may do its work, and the town laid in ashes, should make the officials feel that they should not rest till the work of the organization of a fire company be completed. Men cannot be expected to take the responsibility, the dangers attended fighting the flames, and the unjust censure in which the lookers-on are wont to indulge in, without compensation. There is no more reason for requiring the services of firemen without consideration than there is in requiring men to grade the streets for nothing. If a fire department is compensated, as suggested by "X," or in some similar manner, it will have a head; it will be in a position to be made responsible for its work; and, if there is a failure of duty the blame will fall on deserving shoulders. It looks to us as if a paid organization is what the public good demands, and the public should have it.

An ingenious writer has been figuring out in the *Contemporary Review* the comparative burden of the national debts and war expenditures of the chief European nations and that of the United States. Taking France and England together, he shows that they pay some $407,000,000 a year on their public debt, and $340,000,000 for army and navy, besides giving up to military service the productive energy of 730,000 able-bodied men. Estimating the value of this labor at $100 each, there is another $73,000,000 to be added to the annual charge which France and England pay for their armies, navies, and debts. This, it will be seen, reaches the appalling total of $820,000,000 to be paid by a population only twenty-five per cent. greater than that of the United States, and one certainly very much less able to bear such a burden. As against this, we pay but a little more than $150,000,000 a year for army, navy and debt, leaving $670,000,000 a year in our favor as compared with France and England together. That, under such conditions, this country must go ahead in the race for world supremacy as rapidly and as surely as European nations must fall behind, needs no prophet to foretell. Militarism and progress are not, in these days, convertible terms.

It is small business for newspapers to jump at conclusions, and, without examining facts, smirch a man's good name. This has been the case wherein certain newspapers have said malicious and untruthful things against Governor Stevenson, relative to the reported starving to death of Mrs. Wiegand and daughter, in New Jersey. That the statement that they or either of them died in that manner is utterly false. Mrs. Wiegand made a will shortly before her demise, and individuals who have only destitution to bequeath, seldom dispose thereof by testament. Instead of the Governor being negligent in sending money which he had received for the Wiegands, it is the fact that he advanced and sent them money yet uncollected, but due to them, taking his chances of reimbursement by collecting that money, if he can. Had the *Chronicle* and the *Index* wished to be fair; had they loved truth rather than falsehood and sensational defamation, probably for party ends, they could easily have obtained the facts in the premises, from the court records in Storey county, and from the Governor. But the truth of the case was the least of their wants.

Congressmen complain that the woman suffragists in Washington have made life a burden. It is suspected that the statesmen who have the temerity to growl are Benedicts who when at home are more or less henpecked. No bachelor would be bold enough to protest against the presence of so many pretty silver-tongued orators. There is only one way for the growlers to get rid of the persistent advocates of woman's rights, and that is by agreeing to comply with all their requests for legislation favorable their cause. They cannot bluff the ladies by treating them cavalierly.

OVER THE WIRES.

A CANDID DEMOCRAT.

He Expresses His Opinion on the Leading Topics.

WASHINGTON, April 9.—General Tillman of South Carolina, one of the leading filibusters against the Direct Tax bill, and a pronounced anti-Cleveland man, gave expression to some rather original views to-day. Referring to the Direct Tax bill he says that the measure cannot pass the House this session unless the cotton tax amendment is added to it. The filibusters he says are prepared to hold out until sheol freezes over. He says he has not the slightest idea that the bill will become a law in any shape, as appropriations for pensions will be so large that there will be no surplus left in the Treasury to pay the direct tax, cotton tax or any other kind of tax.

Drifting on to the tariff question, Tillman says it is not the intention of either party to pass the tariff bill during the present Congress, as that is the only campaign issue left for the two parties to fight over. He does not entertain a very high regard for the President's last message, nor does he believe in the Mills Tariff bill. He predicts that if the Democratic party goes into the next campaign with the President's message and the Mills bill as their platform their nominees will not carry a single northern or western State.

A GRESHAM ARMY.

A Gigantic Secret Society that is Working for Him.

CHICAGO, April 9.—It is now definitely known that the secret organization mentioned some time ago as having been organized to work for the election of Gresham for President is a reality, and it is boldly asserted that it now numbers over 500,000 men. It is organized on a military plan and is divided into brigades, regiments and companies. The greatest care is used in getting members, and no applications are received, as the organization seeks a man instead of the man seeking it. The organization is not entirely pledged to Gresham, but he is the preference, and every effort is to be made to elect him, or to have him nominated rather. Should the Republican Convention select another man as standard bearer the organization will support him. One hundred such organizations are already in existence in Illinois alone and their power is likely to be felt between now and the day the Republican Convention meets.

A CLEVER SWINDLER.

He Euchers the Heathen Chinee in a Surprising Fashion.

SAN FRANCISCO, April 9.—Joseph Meyer, alias Henry Gustel, has been arrested on a charge of forgery and five for felony, growing out of various swindling operations. On the 12th of last December, McKay & Chisholm received an order signed Jacoby Bros., for five rolls of goods. The goods were delivered to an expressman, but they were found upon the sidewalk next morning and the order was ascertained to be a forgery. He would visit Chinatown stores and give lavish orders for overalls, shirts and cigars, representing himself to be the agent of white firms. In company with a Chinese he would then proceed to the firms in question. Leaving the Chinaman on the sidewalk, he would enter, sell the goods and skip out of the back door. It is said that five Chinese firms have suffered in this way.

A Murderer Captured.

STOCKTON, April 9.—A dispatch to sheriff Cunningham from Hailey, Alturas county, Idaho, states that Hy James has been captured. James killed an old man named Dougherty at Lodi in a saloon row while shooting at another man. He escaped to Galt and was carried thence in a box to Sacramento by a Chinaman. Sheriff Cunningham started to-day for Sacramento to secure the necessary papers, and will go thence to Idaho.

TELEGRAPHIC BREVITIES.

—Judge Murphy of San Francisco has sentenced J. H. Jeffrey, who shot and killed George Souther, to seven years and six months' imprisonment at San Quentin.

—Jacob Winter, recently arrested at Anaheim, Cal., on a charge of wife-beating, attempted to commit suicide in his cell last night by cutting his throat. His condition is considered dangerous.

—A trunk checked from San Jose for Portland exploded at the Oakland pier yesterday. The trunk had been loaded with some explosive, and was entirely demolished. The baggageman had a narrow escape, and the officers are trying to find the person who shipped the baggage.

Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with Headache, you are fidgetty, nervous, and generally out of sorts, and want to *brace up*. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whisky, and which stimulate you for an hour, and then leave you in worse condition than before. What you want is an alterative that will purify your blood, start healthy action of Liver and Kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at Hodgkinson & Co.'s Drug Store.

Their Business Booming.

Probably no one thing has caused such a general revival of trade at Hodgkinson & Co.'s drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size $1. Every bottle warranted.

REAL ESTATE.

PREBLE & YOUNG,

—DEALERS IN—
Country and City Properties in Nevada and California.

For Sale.

$30,000. Mrs. Howard offers her ranch for sale. The ranch is on the Virginia road, the most delightful of all the country roads in Nevada. It is located eight miles from Reno and in a fertile agricultural section. The ranch consists of about 960 acres and a valuable water right. The ranch has long had the reputation of being one of the most productive of its size of all the ranches in the Truckee Meadows. This year it has produced 800 tons of hay, pasture for 200 head of stock, vegetables and other products in value about $9,000. By the expenditure of a few hundred dollars the ranch could be made to be even much more productive than it is at present. The soil is admirably adapted to the raising of alfalfa, stock and vegetables. It has an excellent house, barn and other buildings, a good orchard and other improvements. Price, $30,000; ¼ cash and the remainder in five equal annual installments. Interest at 8 per cent. per annum.

$13,650. A. Banta's ranch located about five miles southeast from Reno, is offered for sale. It consists of 455 acres, which will be sold at $30 per acre, or for $13,650 and on easy terms of payment. There is on the place a good house of eight rooms, two barns and other buildings. The place has plenty of fine irrigating water and as many as fifty springs of excellent drinking water. The ranch yielded this year 850 tons of hay, and pasture valued at not less than $1200. The total valuation of this year's yield is not less than $3,600, and some one year's yield has amounted to as much as $5,000. As the ranch consists chiefly of pasture and meadow land, the expense of running the place is exceedingly small. The ranch is especially desirable as a stock range and for this purpose would yield a handsome profit on the amount invested.

THE SILVER VICTORY.

The Great Work Accomplished by Senator Stewart.

The work accomplished in the present session of Congress by Senator Stewart should endear him forever to his constituents in Nevada if he never struck another blow for the white metal.

He did not win the whole fight, but he carried the outer works of the gold bugs and planted the flag of silver there.

The blow administered to Wall street was a crusher, but it was only the opening of the fight, which is to right the outrageous wrong perpetrated when the shylocks of Wall street sent John Sherman to Washington to secure the demonetization of silver through the most bare-faced and contemptible trickery ever known in Congress.

It is sweet to think that after all these years Stewart was able to mete out vengeance to the tool of this gang of usurers, for in the debate he drove Sherman to the wall, and on the heels of that, Allison, also a Presidential candidate along with Sherman, saw his opportunity, and falling on the side of silver hammered the fallen Sherman so flat that he is now on the retired list of possible candidates, divested of every chance he ever had before a National Convention. Stewart did not press his own amendment, it was too radical a change, but he accepted Beck's proposition as a compromise, and now for every dollar of national bank circulation that is surrendered, a silver dollar goes into circulation, and this is to be in addition to the amount already provided for by law for coinage.

Jones laid the foundation for the fight years ago in his exhaustive plea for silver, but Stewart plunged into the fray with a sword that no gold armor could withstand, and Wall street is beginning to rock with the ague as it contemplates his work.

Every year silver is gaining friends, and at the next session its flag will be planted right in the enemy's stronghold. The campaign cannot be fought in a day. It will take another session and perhaps another after that to win free coinage of silver, but Stewart has carried the outposts, and he is not the man to give up a single inch of ground gained.—*Carson Appeal.*

Send the Best.

Nevada must have capable, influential, prominent men to represent us in the National Republican Convention to be held at Chicago on June the 19th, and of the six delegates, Senators J. P. Jones and Wm. M. Stewart should be selected at large. To send local men, who are unfamiliar with the tactics of these assemblages, is to admit our negligence, and want of interest in the struggle of the State. These two men have a national reputation and are qualified to lead the delegation into the fight allied with the silent power, that wins or destroys. What use to send men, who are apt to fall into the stragglers camp and espouse the bush whackers' tactics. Nevada must be heard this time; she must combine with the Western States and nominate a man of our choice, a silver man, who recognizes the need of wise legislation for the precious white metal. What two men can accomplish more, than these two recognized champions of silver? By their position in the Senate, by their executive abilities, by their knowledge of the politicians and statesmen of the country, they are entitled to it, and the party must and should appoint them at the State Convention at Winnemucca next May the 15th.—*Austin Reveille.*

Should be Reimbursed.

The young men whose clothes were ruined by the fires of last week, having been requested to make known to the County Commissioners the losses sustained by them, have done so, and to-day a bill will be presented to the County Commissioners for relief. The names of the sufferers and the losses sustained are as follows: F. A. Ziegler, $20; Vic La Motte, $9; John Wolf, $4; Tom Mansfield, $10; James Budden, $8; Thomas Biggs, $9; Sol Barnett, $9; R. M. Stone, $9; John Murray, $5; James Hawkins, $6; Fred Holmes, $13; Charles Dealy, $10; S. Williams, $4.50; J. Harris, $5; W. Ware, $3; J. Jackson, $8; H. Greer, $5; J. Goodwin, $11.

Rio Bonito Excursion.

Rio Bonito Colony is making splendid and extensive preparations for the excursion from Los Angeles, Fresno, Riverside and all Southern California and San Francisco on Saturday, April 14th. Tickets round trip from Los Angeles are only $22 and from San Francisco $5. As Butte is now at the front of development we may expect a large number of people on that excursion. When they see the magnificent land of Rio Bonito the southern Californians will open their eyes in wonder, and no doubt many tracts will be sold.—*Oroville Mercury.*

State Land Office.

For the six days from March 31st to April 5th inclusive forty-one applications for State land were filed embracing 17,583.40 acres. Cash receipts were: Payments on applications, $4,305.86; payments on contracts, $151.09; interest payments on contracts, $216; total, $4,762.95.

Card of Thanks.

The undersigned desire to extend their sincere thanks to all who assisted in saving their stock of goods and building at the fire on Friday night last. Such services as were rendered cannot be too highly commended and simple words cannot express the great obligations which we feel towards those who so bravely came to our assistance in our time of need.

MASQUERADE AT VERDI.

The Factory Boys and Belles Enjoy Themselves.

VERDI, April 7, 1888.

EDITOR GAZETTE—The masquerade ball of the Verdi factory boys last Friday evening was a grand success and will long be pleasantly remembered by the participants. Many were in attendance from neighboring towns, and the riverside was particularly well represented. The supper was served by the well-known caterer, John H. Borman, and was prepared in the best of style. The music was rendered by Messrs. Cardinal and Messenger, and both proved themselves to be first-class musicians. It was at a late hour Saturday morning when the dancers departed for home, all being well pleased with the entertainment afforded by the factory boys.

The following were present: Ladies—Misses P Odette, Irene Gill, Georgie Hamlin, Nash, Millie Doten, A. Cota, Maud Towl, W. Lemery, Jessie Ford, Nellie Woods, Florence Bates, Annie Turner, Abbie Laughton, Nancy Laughton, Edna Nash, Crissie Andrews, Carrie Bates, Kate Laughton, Addie Park; Mesdames C. Bates, Leon Lonkey, Harry Free, A. E. Bates, Gibson, John Montz, T. Holt, Wm. Merrill, O. Codington.

Gents—Dan Ring, James Sullivan, F. M. Bowers, Tom Kearns, Claude Merrill, James Nash, Camille Lonkey, Allie Revear, Chas. Sproul, Albert Revert, O. Codington, George Laughton, George Wilson, Charles Laughton, W. J. Cooksey, C. N. Stevenson, William Morrill

VERDANT.

Pertinent Suggestions

EDITOR GAZETTE—There is no better way to effect the protection of the town from fire than by an individual expression of opinion through the press. The town limits extend a mile one way and a mile and one-half the other. All property within these boundaries is entitled to equal protection, if taxed for the purpose of that protection. Hence it is that any move made toward the organization of a fire department should look toward the interest of those who live in the remote parts as well as those who live in the more central parts. To do this will require at least one of the engines to be fully equipped, and trained horses at command.

As a citizen and taxpayer, I would suggest that the present engine-house be so enlarged as to afford room, not only for the several engines, including the hand-engine, but a pair of horses and one man, whose duty it will be to look after the horses and the engines, and keep them in shape so at a moment's warning all will be ready for action. This man with an engineer and a few nozzle-men, who should be put in training for their work, should receive a fair compensation for their services. For the remainder of the force there are men who, as a matter of self-protection, will freely volunteer their services. Thus, the town will have an efficient guard against fire at comparatively small expense.

Often in the future, as in the past, the hand-engine can hold in check incipient fires, till the steamers can be brought into action, and often will be able to master the flames.

Accident to President Brown.

Last Saturday evening at Howard's ranch, while President Brown of the University was driving with his family and some of his relatives who are visiting Reno, the reach of the carriage broke, thereby releasing the front wheels from the rest of the conveyance, and those in the carriage were suddenly thrown from their seats. All of the party are suffering from bruises received from the mishap, and Mrs. Major Brown of Cleveland is confined to her room. It was fortunate that the accident did not occur while the team was in rapid motion and where the ground was less level.

Quibbling Insurance Adjusters.

A difference has arisen between the adjusters of the insurance companies which are losers by the late fires and the policy-holders as to damage sustained. The companies do not insure to the full value of the property, and when there is an actual loss equal to the amount insured no company conducted on sound business principles should hesitate in paying the loss; and should any company or its adjuster quibble over technicalities and thus practically try to beat the insured out of his rights, such company should hereafter be given the cold shoulder.

The motto of California means, I have found it. Only in that land of sunshine, where the orange, lemon, olive, fig and grape bloom and ripen, and attain their highest perfection in mid-winter, are the herbs and gum found, that are used in that pleasant remedy for all throat and lung troubles.

Whenever you feel an uneasiness in the region of the heart, a slight pain in the shouler, arm, or under the shoulder-blade, or when you find yourself short of breath when exercising, or your heart has periods of beating fast, you have heart disease, and should take Dr. Flint's Heart Remedy. At druggists. $1.50. Descriptive treatise with each bottle; or address J. J. Mack & Co., S. F.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

THE WRONG FUNERAL.

How a Chicago Lady Came to Place a Wreath on a Stranger's Grave.

Speaking of funerals, says the Chicago *Journal* Stroller, reminds me of a decidedly funny thing that happened the other day to a friend of mine, and, with all due reverence, it is a fact that funny things will sometimes happen upon these occasions. My friend, whose husband was one of the pall-bearers, was obliged to occupy the carriage alone. The services were quite lengthy in church, and, as it was a bitterly cold day, the driver deemed it advisable to warm up a little at a convenient place opposite the church. After the services were over all the carriages had departed, when my friend, who had been vainly trying to find her driver, discovered him, and, hurriedly entering her carriage, told him to whip up and overtake the procession. Evidently the warming-up process had been the means of muddling the driver's brain a little. They overtook the funeral and were driven to the depot to take the cars for the cemetery—the Milwaukee & St. Paul. After reaching the cemetery my friend was surprised to observe that for a small woman the casket was unnecessarily large, and that after leaving the church the pall-bearers were changed, as her husband was not among them. Neither was there a face she knew. The services at the grave being over, they were about to return to the cars, when upon the other side of the depot platform the Chicago & Northwestern train came in, and she was horrified to see her husband acting in the capacity of pall-bearer, tenderly lifting a casket from the cars. It took her several minutes to make him comprehend what was the matter, and to get him to go with her to the grave she had just left to get a wreath she so carefully placed there, sent by a society of which she and deceased were members, and place it where it properly belonged.

Credit in Different Countries.

In Asia Minor a credit of but two or three weeks is in most cases all that is allowed.

In Italy but little credit business is done, and none without good security being given.

In France a four months' acceptance is required to be sent in settlement of the invoice.

In Cuba the time fixed for payment is generally from four to five months after delivery of the goods.

In the Bermudas accounts are settled but once a year. The 30th of June is the day usually fixed for the payments.

In Austria it is scarcely possible to do business without allowing a very long credit, which is nearly always one of six months.

In England a payment of the price of goods delivered is required at the end of three months, dating from the day of shipment.

In Turkey even objects of prime necessity are sold on credit, and in this country, as well as in Russia, the time allowed is in most cases twelve months.

In Spain four-fifths of the transactions are done on a cash basis, while in Portugal great liberality is shown, and quite a long credit is usually allowed.

In China it is not customary to give credit. Money is obtained from lenders, who exact an interest of from 8 to 12 per cent. Business is nearly always conducted upon a cash basis.

In Mexico the large commercial houses willingly give credit of from six to eight months, and in the retail trade longer terms are given customers in which to settle their accounts.

In Canada settlements are made at the end of thirty days, with a discount of 5 per cent. Sometimes a credit of from three to six months is allowed, but in this case there is no discount.

The consul-general of the United States at Rio states that one of the greatest drawbacks to commercial intercourse with Brazil lies in the necessity of allowing too long a credit. At Rio, as at Buenos Ayres, minimum credit is six months.

In Costa Rica a credit of from six to twelve months is given in case of merchandize imported from Europe, in order that the goods may be easily and quickly disposed of. But since this system of credit has often led to losses it is now being given up.

Red Tape.

An insistence upon having everything important or otherwise, done in precisely such and such a manner, regardless of convenience and even of possibility, is always irritating to busy people; but it must have been peculiarly so in time of war. A Massachusetts officer relates two amusing instances:

A quartermaster was notified by the proper accounting officers at Washington, that his account, filed for approval, had been found incorrect. He had issued to the commissioned officers of his command, three lead pencils in excess of the number to which they were entitled. His credit was disallowed to that extent, and his *pay was stopped* till the discrepancy should be satisfactorily explained.

At another time a captain, almost constantly on the move, had failed to account for a hatchet which had been issued to him, and was notified that unless he made proper returns, his pay would be stopped.

Now, what had become of the hatchet the captain didn't know, and, of course, couldn't tell. So he wrote back, asking the price of the article, and announcing his willingness to remit the required amount.

To this he received the reply that "the department had no hatchets to sell." Whereupon he bought one at the nearest hardware store, and forwarded it to the quartermaster-general, with a letter expressing his regret that the government was so short, and concluding with the hope that affairs would go on smoothly, now that the missing hatched was replaced.

Knowledge.

Acquired merely for its own sake, knowledge may lie a heavy and undigested mass in the mind of the owner, clogging his activities and feeding only his vanity. But, as a means to some beneficent and well-defined end, its preciousness can never be over-estimated. Brought into practical operation for the benefit of mankind, it will bless a thousandfold him who gains it, and the world through him. It will preserve health, promote civilization, and lift up all life to a higher level. Simply storing it up in the memory will not do this; it must also be used intelligently, scattered liberally, and transmuted into the very life of the nation itself. Much of the knowledge of the present day will doubtless fade, pass away, and be outgrown, as much of the knowledge of the past has done; yet, if it has been used aright, its effects will remain.
